

40-foot photovoltaic energy storage container is more efficient

Overview

The 40ft HSO solar container delivers nearly twice the power generation capacity with almost the same structural framework. This results in a high-density energy profile that lowers the "per-watt" investment by a considerable margin.

How to make more than 40 security() calls?

The workaround is not to have more security() calls, but to be able to fetch many more values than 40, with those 40 security() calls, by using tuples. As demonstrated in my answer, 7
