The difference between the 400 and 404 HTTP errors

What the difference between the 400 and 404 HTTP errors? Can you show me an example for

understand the difference? Thank you.

[400Ah 12V LiFePO4 Off-Grid Battery Kit , RICH SOLAR](#)

The 400Ah Battery Bank is tougher, safer, and more powerful than other battery banks on the market.

[How do I fix: openai.BadRequestError: Error code: 400?](#)

Usually 400 comes with an additional message, because Bad Request is a pretty generic HTTP status code. In my case, trying to reproduce the example led to the following error:

[HTTP 400 \(bad request\) for logical error, not malformed request syntax](#)

The HTTP/1.1 specification (RFC 2616) has the following to say on the meaning of status code 400, Bad Request (?10.4.1): The request could not be understood by the server due to

400 BAD request HTTP error code meaning?

The challenge with 400 is that many load balancers use it for header-size issues before the request even reaches your app. Following Erik's logic, keeping 400 for transport-level issues and

Best 400ah Lithium Battery [Updated: April 2026]

The essential features to consider in a quality 400Ah lithium battery include capacity, cycle life, discharge rate, thermal management, battery

management system, weight, and warranty.

["Repeated InvalidArgument: 400 API key not valid. Please pass a](#)

Expected Outcome: I expected the API key to be valid, and the Generative Language API call to execute without encountering the "InvalidArgument: 400 API key not valid" error.

[How to fix nginx throws 400 bad request headers on any header](#)

I wish nginx was saying something other than 400 in this scenario, as nginx -t didn't complain at all. P.S. this happened while migrating from older nginx 1.10 to the newer 1.19.

Amazon : 400ah Lithium Battery

12.8V 400Ah Lithium Battery with Bluetooth, IP67 Waterproof Lifepo4 Battery, 5000+ Deep Cycle Battery, Built-in 200Ah BMS, Rechargeable Battery for High-Power Air Conditioners and Induction

REGO 12V 400Ah Lithium Iron Phosphate Battery

Replace four 12V 100A batteries with one REGO 12V 400A, unlocking 5.12kWh of storage, saving 30% on installation space, and

Azure OpenAI error Error code: 400

Apart from the obvious additions, the only thing I had to do to prevent code 400 errors was to include the word JSON somewhere within messages. This is necessary when you force a
