### Why am I getting a 422 error code?

I am making a POST request, but unable to get anything besides a 422 response. Vue.js client code:

### [400 vs 422 response to POST that references an unknown entity](#)

However, 422 is gaining popularity via Ruby on Rails and Dropwizard where it is used to indicate non-syntactic issues with the body. That growing tendency represents a strong signal to a developer

### Difference between 400 and 422 HTTP status codes

There are a lot of discussions if the HTTP request payload is missing mandatory attributes, the response code must either be 400 or 422. I am yet not clear about the difference. Please suggest
