light circuit. This can be used for a school project or as just an introduction to making light circuits before moving on to more advanced projects.

DIY Solar Lights for Beginners (No Tools Needed!)

Video Tutorial
Parts
Step 1: Mount The Charge Controller
Step 2: Connect The Charge Controller to The Battery
Step 3: Select Your Battery Type
Step 4: Mount & Connect The Solar Panel
Step 5: Connect The Lights
Step 6: Mount The Lights
What Size Solar Panel & Battery Do I Need to Run Lights?
Pick a place to mount the charge controller. Above all, I'd recommend taking into account where you'll mount your solar panel and picking a place for the charge controller where the solar panel's wires can reach. For mine, I picked a spot on the wall next to my shed's doors. With your mounting location picked, stick some of the double-sided mounting
