

American windmill history

Overview

In 1854, Daniel Halladay developed the American-type windmill. Its sails were held into the wind by a weight, which would rise slowing to reduce the area of the sails when the wind was too fast.

List of windmills in the United States

This is a list of "traditional" windmills in the United States, which usually are gristmills. In this

nation more than others, "windmill" is often used to refer to what are properly termed windpumps bringing up water for agriculture. This is at least partly due to usage by windpump builders Eclipse Windmill Company (1873) and Aermotor Windmill Company (1888, the sole surviving US "windmill" manufacturer). And it is also used

American Windmill Museum
