Crescent Dunes Solar Energy Project

Overview Production History Technology Gallery Notes External links

Crescent Dunes began operation in September 2015, but went off-line in October 2016 due to a leak in a molten salt tank. It returned to operation in July 2017. While its average monthly production was expected to exceed 40,000 MWh, as of May 2019 it never reached that value and only exceeded half of it during 9 months. The commissioning of a new thermal plant requires up to four years to achieve 100% operating level, fr
