

# Energy storage container is the first of its kind in Narada

## Energy storage container is the first of its kind in Narada

---

### [Narada launches Center L Ultra 6.25MWh AC/DC integrated](#)

The Narada Center L Ultra 6.25MWh energy storage system uses self-developed and self-produced 783Ah ultra-large energy storage batteries and "AC/DC integration" design to achieve

### [MIT Energy Initiative conference spotlights research](#)

At the MIT Energy Initiative's Annual Research Conference, industry leaders agreed collaboration is key to advancing critical technologies amidst a changing energy landscape.

### [New facility to accelerate materials solutions for fusion energy](#)

The new Schmidt Laboratory for Materials in Nuclear Technologies (LMNT) at the MIT Plasma Science and Fusion Center accelerates fusion materials testing using cyclotron proton beam

### [Narada begins global delivery of its 6.25 MWh liquid-cooled battery](#)

Narada Power has announced the global availability of its Center L Ultra BESS, a 6.25 MWh liquid-cooled solution housed in a standard 20-foot container, that is designed for two- to eight

### [Narada's Center L Ultra 6.25MWh Liquid-Cooled Energy Storage](#)

The system delivers a capacity of 6.25MWh within a standard 20-foot container, making it suitable for energy storage applications ranging from 2 to 8 hours. The system features an innovative

### **Using liquid air for grid-scale energy storage**

Liquid air energy storage could be the lowest-cost solution for ensuring a reliable power supply on a future grid dominated by carbon-free yet intermittent energy sources, according to a new

### **New Energy Storage**

Narada is one of the first batch of enterprises in the world to pass UL9540 certification of MW class container energy storage system. Passing UL9540 certification means that Narada will have

### [Narada's Center L Ultra 6.25MWh Liquid-Cooled Energy Storage](#)

Recently, Narada has announced the upcoming mass production of its Center L Ultra liquid-cooled energy storage system, once again demonstrating its strong technical capabilities in the

### [Narada Unveils 783Ah Solid-State Battery and Center L Ultra](#)

Narada Power debuts 783Ah solid-state battery & high-capacity energy storage systems (6.25MWh/8.338MWh) at SNEC 2025, showcasing cutting-edge tech for global renewable energy

## Explained: Generative AI's environmental impact

MIT News explores the environmental and sustainability implications of generative AI technologies and applications.

## [A new approach could fractionate crude oil using much less energy](#)

MIT engineers developed a membrane that filters the components of crude oil by their molecular size, an advance that could dramatically reduce the amount of energy needed for crude oil

## [How artificial intelligence can help achieve a clean energy future](#)

A look at how AI can be used to help support the clean energy transition by helping to manage power grid operations, plan infrastructure investments, guide the development of novel

## **Evelyn Wang: A new energy source at MIT**

As MIT's first vice president for energy and climate, Evelyn Wang is working to broaden MIT's research portfolio, scale up existing innovations, seek new breakthroughs, and channel

## [What's the best way to expand the US electricity grid?](#)

Growing energy demand means the U.S. will almost certainly have to expand its electricity grid in coming years. What's the best way to do this? A new study by MIT researchers examines

### **Narada Power Unveils Cutting-Edge Energy Storage**

Narada Power unveils advanced energy storage systems and a solid-state battery at SNEC 2025, showcasing cutting-edge technology for the global transition to

### [New materials could boost the energy efficiency of microelectronics](#)

MIT researchers developed a new fabrication method that could enable them to stack multiple active components, like transistors and memory units, on top of an existing circuit, which

### **Narada Power Showcases Groundbreaking New**

Center L Ultra 6.25MWh Energy Storage System: Utilizing self-developed and manufactured ultra-large capacity batteries and an integrated AC/DC design,

### [Next-generation geothermal energy: Promise, progress, and challenges](#)

Geothermal energy, a clean, continuous energy source accessible in many locations, has been slow to catch on. Nearly 2,000 years ago, the Romans made extensive use of geothermal
