

Find a place in the mountains to generate solar power

Overview

Several systems located in high altitudes were put into service in recent years. In Europe most of these facilities are located in austrian and swiss Alps and in Asia in India and China (Himalaya, Tibet).

Find a place in the mountains to generate solar power

Find your friends and family with Find Hub

To find your friends and family, you can use the Find Hub app to: Share your location with others Find others' location on a map Take a few different actions for those shares Set up your Fin

Harnessing the Sun from the Peaks: Mountain Solar

From remote communities in the Andes to massive solar farms in the Tibetan Plateau, real-world case studies demonstrate the practical viability and

How Find Hub protects your data

Find Hub uses the best location available, whether from your own device or crowdsourced from the broader network (if you have a lock screen set), to help you find your item. 'With network everywhere'

Find my device
