## Overview

---

The flexible photovoltaic support adopts the process of "hanging, pulling, hanging, supporting and pressing", and the installation span can reach 10-30 meters, effectively avoiding unfavorable factors such as mountain undulations and high vegetation, and transforming the land.

## **solar mounting component accessories**

Flexible photovoltaic supports break through the limitations of terrain and can be widely used in large-span complex terrain and "PV+" scenarios.

### [Modal analysis of flexible photovoltaic support system using multi](#)

This study conducts a comprehensive field modal testing on flexible PV support structure, integrating motion adaptive vision-based measurement and velocity sensor measurement.

### [Improvement of the flexible support photovoltaic module system: A](#)

Since 2000, flexible support photovoltaic module structure systems have been widely used because of their advantages such as short construction period, large span, good economic
