Our comprehensive guide to CSS grid, focusing on all the settings both for the grid parent container and the grid child elements.

What Are The Grid Lines On Solar Panels For?

Grid lines are carefully engineered to collect and move the electricity generated by each solar cell. They gather the electric current and guide it

Those Lines On Solar Panels Aren't For Decoration

The thinner grid lines are called fingers, and they function as pathways for electrons. These electrons travel through the fingers in the form of a direct current until they reach solar cell
