[How Does Solar Power Function in Extreme Altitudes? Exploring](#)

Solar panels generate more electricity at high altitudes due to increased solar radiation. For example, at 10,000 feet, solar intensity rises by about 25% compared to sea level.

[High-resolution electricity generation model demonstrates suitability](#)

We construct a global map overlaying sites on each continent where high-altitude floating solar could provide low-carbon, land-sparing electricity. Our results present a compelling motivation to develop
