

# How many kilowatt-hours of electricity can a portable power bank have

ESS

## Overview

---

The right size depends on three simple things: what devices you want to power, how long you need them to run, and where you'll use the station. Most people need a 500-1000 watt-hour unit for camping and small emergencies, while home backup typically requires 1500-3000 watt-hours or.
