[How do I push a new local branch to a remote Git repository and track](#)

How do I: Create a local branch from another branch (via git branch or git checkout -b). Push the local branch to the remote repository (i.e. publish), but make it trackable so that git pull and

[Difference between 'new operator' and 'operator new'?](#)

A new expression is the whole phrase that begins with new. So what do you call just the "new" part of it? If it's wrong to call that the new operator, then we should not call "sizeof" the sizeof

When to use "new" and when not to, in C++?

You should use new when you wish an object to remain in existence until you delete it. If you do not use new then the object will be destroyed when it goes out of scope.

How to open link in a new tab in HTML?

Note I previously suggested blank instead of _blank because, if used, it'll open a new tab and then use the same tab if the link is clicked again. However, this is only because, as GolezTrol

ICT , RackPower , Rack Mounted Power Solutions

Designed and manufactured in New Zealand, RackPower's solutions are trusted throughout Australasia and the Asia-Pacific. Empower your IT Facility with RackPower's industry-leading solutions.

[Move the most recent commit \(s\) to a new branch with Git](#)

A graphical version manager where you would just add a tag for the new branch without dealing with what seems to me obscure and archaic syntax would be such a relief. My kingdom and

How does the new operator work in JavaScript?

The new operator uses the internal [] method, and it basically does the following: Initializes a new native object Sets the internal [] of this object, pointing to the Function prototype
