

Panorama of Hong Kong solar power generation

Overview

6Wresearch actively monitors the Hong Kong Distributed Solar Power Generation Market and publishes its comprehensive annual report, highlighting emerging trends, growth drivers, revenue analysis, and forecast outlook.

Panorama of Hong Kong solar power generation

Standard Layout

Home > EXPLORING VIEW DATA > Selecting Dimension Layout > Standard Layout Standard Layout This is the default layout. It displays the members of the dimension in standard hierarchical format

PolyU LSGI

Hong Kong contains about 309,606 buildings, 233,152 buildings are suitable to install solar panel. The sum of PV potential is about 2.43 TWh. However, the

Displaying Application Information

The Info option displays the ID and last modification date of a folder or application.

Renaming Folders and Workboards

1. In the Workboards Pane, click next to the folder or workboard you want to rename. From the options menu, select Rename.

GovHK: Key Government Renewable Energy Projects

In recent years, the Government has applied innovative technology to develop RE projects in various suitable premises.

Use of solar energy in Hong Kong

Given that 70% of the city's greenhouse gas ("GHG") emissions are the result of electricity generation, there is an urgent need to develop cleaner

[Unleashing the green potential: Assessing Hong Kong's building solar](#)

Utilizing the Perez model for solar irradiance, Hillshade analysis for shading effects, and Ladybug tools for facade obstruction simulation, we assess the PV potential and its spatial-temporal

Layout

You can use the Layout option on the Insights tab of the ribbon to choose a layout for displaying the data and the insights in the selected view component: . Show only grid . Show only insights . Show

Assigning Folder and Workboard Permissions

Using the Sharing option from the options menu in the Workboards Pane, you can assign permissions to workboards and to workboard folders.

WORKBOARD COMPONENTS

Workboard contents may consist of the following components: View, Chart, Text, Image, Navigation, Web, HTML, Reporting Services, Infographics and Map.

Resizing and Repositioning Comments

A comment always remains attached to the element it was initially associated. However, you can move the note box anywhere on the workboard.

Sharing

Using the Sharing option from the options menu in the Models Pane, you can assign permissions to models and to model folders.
