

Principle of water guide clip for photovoltaic panels

Overview

Water drainage clips are small, engineered components designed to manage how water exits a solar panel frame. Installed at specific points on the PV frame, they create a channel that guides rainwater away efficiently.

Principle of water guide clip for photovoltaic panels

Solar panel water drainage clip

.The clip is designed to be attached to the bottom edge of each PV panel, creating a small gap between the panel and the mounting surface. This gap allows water

[Do Solar Panel Water Drain Clips Actually Work? - SENYENERGY](#)

Coming in three sizes, these clips can be used on framed panels between 30mm, 35mm and 40mm deep to help minimise the amount of water and dirt on panels by drain water tension at the base of
