### **Solar power in Belgium**

OverviewFlandersTimelineNotable installationsSolar PV market by segment

As of July 2012, there were already 42,644 photovoltaic installations in the Flemish region that had received green certificates. By 2011, it became clear that Flemish subsidies for solar panels had had a significant impact on the cost

of electricity of households without a photovoltaic installation. An added cost of up to 148 EUR was charged annually. Flemish minister for Energy Freya van den Bossche admitted that subsidies were to
