User Documentation

Learn how to use User Marketing Automation software. Find step-by-step instructions on every aspect of the app.

What is the purpose of "pip install --user "?

The --user option modifies all pip commands that accept it to see/operate on the user install folder, so if you use pip list --user it will only show you packages installed with pip install --user.

User

User is a marketing automation platform that helps companies streamline processes and grow their business faster and transform behavior into personalized experiences, without the dev time.

About Us

About User User is an all-in-one marketing automation platform aimed at boosting engagement and improving conversion. How? By using a single data source for your customers and

[GCL Energy's first user-side energy storage project in](#)

The project marks a new start for GCL Energy in the field of user-side energy storage in Nanjing, with a total installed capacity of 1.165 MWh and a
